## BILL DOOMED IN HOUSE OF LORDS

Commons Passes Home Rule Measure by 367 to 257.

CHEER ASQUITH AND REDMOND

When Figures Are Announced Irish Nationalists Wave Hats, Handkerchiefs and Papers and Cheer Lustily for Leaders Who Have Worked Hard for Measure—Lords Receive Bill and Hear It Read for First Time.

London, Jan. 17.—After a long, stern battle the home rule bill passed the house of commons by a majority of 110. Later it was read for the first time in the house of lords.

There were two divisions in the lower house. Mr. Balfour's motion for its rejection was defeated, 258 to 368, while the third reading was carried by a vote of 367 to 257, one member of each side having left the house in the interval.

The result of the division was too much a foregone conclusion for a tremendous demonstration, but Irishmen inside and outside of the house did their best, and, assisted by the Liberals and Laborites, gave the measure for which they waited and worked so long a good sendoff on its way to the house of lords, where its fate certainly is sealed.

The division was preceded by another series of brilliant speeches by the political leaders, among whom were Frederick E. Smith and the solicitor general, Sir John A. Simon, two of the cleverest among the younger members, and the veterans, John E. Redmond, Timothy Healy and Augustine Birrell, chief secretary for Ireland.

The house was crowded. The Nationalists were only one man short of their full strength. Several of the older Nationalists, who are seldom able to attend, came over from Ireland for the division.

The Liberals and Laborites, too, turned out in force and the Unionists were not far below their total membership. The galleries were filled to their capacity.

When the figures were announced the Nationalists waved hats, handkerchiefs and papers and cheered lustily for Premier Asquith and Mr. Redmond.

Carried Away by Enthusiasm.

The latter, who is usually impassive, was carried away by the enthusiasm of his followers and entered into the spirit of the demonstration as enthusiastically as they.

Those who crowded the galleries received the figures with another roar of welcome and followed this by cheering the bill itself as a copy was carried by an official from the commons to the lords. The upper house met especially to receive this measure and formally passed its first reading.

The house of commons soon quieted after the Irish demonstration, but outside the crowd continued to cheer for some time. Police prevented any attempt at an organized demonstration, fearing a clash between opposing factions. The Nationalist songs and cheers brought forth counter cries from persons who had gathered largely out of curiosity.

In a characteristic speech during the course of the debate Mr. Redmond dwelt feelingly on the years of defeat and discouragement through which Irishmen had passed in their efforts to secure home rule and now their day of victory had arrived.

"We know that the house of lords is going to throw the home rule bill out," he said, "but I believe the home rule bill, in spite of the house of lords, is going to pass into law within the lifetime of this parliament."

Andrew Bonar Law, leader of the opposition, said that no bill which included Ulster without Ulster's consent ever could become a law. The bill as it was could not stand for a single year. Once they gave Mr. Redmond a parliament in Dublin he could alter it in any way he pleased.

MEASURE AGAINST POLYGAMY

Constitutional Amendment Proposed in Wisconsin Legislature.

Madison, Wis., Jan. 17.—Bills for consolidating the state park and state forestry boards, appointing a state inspector of aparies, prohibiting marriage by first cousins, abolishing the primary and general election state campaign pamphlets, exempting \$1,500 taxes from every homestead, extending the workmen's compensation act to all employees, except those filing written notice of contrary intention, providing an adequate remedy to allow a wife to assert her right to support without beginning a divorce action and a constitutional amendment prohibiting polygamy were introduced in the Wisconsin legislature.

Spy Given Four Years in Prison.

London, Jan. 17.—George C. Parrott, formerly a gunner in the British navy, was sentenced to four years' imprisonment when convicted of being a spy for the German government. It was charged that Parrott sold to Germany valuable information regarding the English navy and also harbor and fortification plans.

## REPORT DEFENDS INDIAN SERVICE

Minority Members Call Majority Findings Reckless.

CONDITIONS AT WHITE EARTH

Graham House Committee Asserts Indians Have Been Victims of Series of Government Acts Designed Only to Aid Lumber Companies and Others—Minority Report Only Concedes Mistakes Have Been Made.

Washington, Jan. 17.—Minority members of the committee on expenditures in the interior department, in presenting a report to the house on the conditions on the White Earth Indian reservation, declared the majority report "shows on its face evidence of extreme exaggeration of statements and reckless charges of the most serious character against the Indian service as a whole and against public officials in particular, who have a record of faithful service, which entitles them to, and has heretofore secured for them, reputations for enlightened and faithful devotion to the interests of the Indians and the public service."

The report refers to former Indian Commissioner Leupp and Indian Inspector James McLaughlin, who are criticized in the majority report, and says:

"Sweeping and serious charges against men of such established record and reputation for faithful, honest and sympathetic service for the Indians and the public are not justified by hurried and superficial examination of some isolated official act."

The minority further points out that the Indian office has made mistakes; that there may have been unwise or irregular acts and practices in connection with the operations on the White Earth reservation and adds that "if such be the case it cannot afford an excuse for the general sweeping and serious condemnation of the Indian office and service."

"Most of the procedure, acts and practices criticised and complained of," the report concludes, "occurred under the operation of the so called Clapp amendment to an Indian appropriation bill. If the carrying out of the acts of congress resulted in loss to the Indians the blame would seem to lie with congress and not with the Indian office, which, from the record, seems to have been opposed to the legislation."

INDIANS VICTIMS OF GREED

House Committee Reports on White Earth Reservation.

Washington, Jan. 17.—Declaring that the Chippewa Indians of the White Earth reservation in Minnesota have been the victims of the greed of lumber companies, that legislation backed by certain Minnesota members of congress has resulted in the "exploitation and despoliation" of the Indians and that the Clapp "rider" of 1906, which granted mixed blood Indians their lands in fee simple was a "dreadful blunder," the congressional committee appointed to investigate conditions at White Earth made its official report to congress.

Congressmen James R. Graham of Illinois and Henry George, Jr., of New York, members of the committee, visited the Minnesota reservation in February last and took the testimony of witnesses at hearings in Minneapolis, Detroit, Minn., and in Washington.

CASTRO AGAIN SEEKS BOND

Makes Another Application Pending Decision of His Case.

New York, Jan. 17.—Another application for the release of Cipriano Castro under bond, pending final decision as to his right to enter the United States, was made before the federal district court.

The renewal of this motion was due to the fact that the Venezuelan case is now before the department of commerce and labor on an appeal from the decision of the local immigration authorities ordering his deportation.

Federal Judge Holt reserved decision.

MANN TO HEAR ALLEN PLEAS

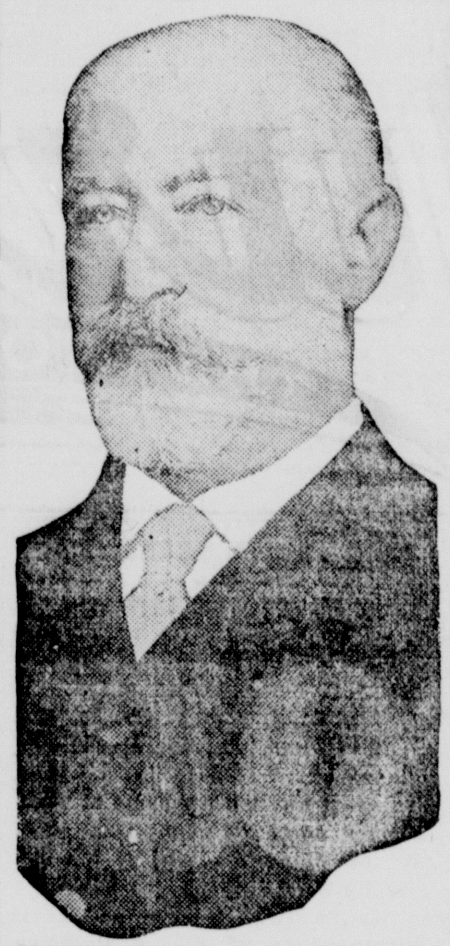

Will Grant Hour's Time to Sympathizers of Condemned Men.

Richmond, Va., Jan. 17.—Governor Mann, who relieved Floyd and Claude Allen, the two Hillsville gunmen, decreed that they should be electrocuted Friday, March 7, unless otherwise ordered.

Governor Mann announced that on Feb. 1 he would give the Allen sympathizers one hour in which to present their arguments for a commutation of sentence.

Allen and his son were visibly affected and relieved when informed that another delay had been obtained by their lawyers and friends.

JACOB H. SCHIFF.  
Gives His Views as to the Control of Money.

OPPOSES MONEY COMBINES

Jacob H. Schiff Appears Before House Committee.

Washington, Jan. 17.—Liberty of individuals to concentrate money and power to the limit of their ability was advocated before the house money trust committee by Jacob H. Schiff of the New York banking firm of Kuhn, Loeb & Co.

Mr. Schiff declared that individuals should be allowed to exert their utmost efforts to concentrate fortunes and power, until the laws of nature caused the attempted "monopoly" to fall by its own weight. He was opposed, however, to concentration through corporations and holding companies. Mr. Schiff could not say whether concentration had as yet reached a point where it was dangerous.

REFUSES TO ADMIT LIBEL OF ROYALTY

Secretary Nagel Orders Englishman Departed.

Washington, Jan. 17.—Edward F. Mylius, the journalist convicted in London of libeling King George, for which he paid a penalty of ten months in prison, was denied admittance to the United States by Charles Nagel, secretary of commerce and labor.

The cabinet official held that Mylius' offense was a crime involving moral turpitude, which barred his admittance to this country. He denied the contention that it was a purely political crime, except by the statutes.

Only appeal to the courts can now stay Mylius' deportation. "I cannot assume," said Secretary Nagel in his decision, "that a law which excludes anarchists and persons who advocate the overthrow of government or the assassination of public officials was intended to admit the publisher of a false charge of bigamy, simply because he advances a political purpose or motive for the act, or because the false charge was directed against a king among others, or because the court in which the trial was held regarded the political aspect of the case as an aggravation of the offense."

TO HOLD DYNAMITE EVIDENCE

Wickersham and Miller Decide to Keep It Intact.

Washington, Jan. 17.—At a conference here between Attorney General Wickersham and District Attorney Miller of Indianapolis, who conducted the dynamite conspiracy trial, it was decided that the government will hold intact the evidence collected at the trial and not forward it to state authorities for such prosecutions as they might desire to undertake under state laws, unless a request is received from state officials.

The evidence will not be disturbed until after the appeals of the defendants have been decided by the circuit court of appeals.

MAY ADD TO SUPREME COURT

Bill in Minnesota Legislature for Two More Justices.

St. Paul, Jan. 17.—There is a movement on foot in the legislature for two assistant associate justices of the state supreme court.

The Schmalz liquor resolution went to the house buildings committee.

There are propositions in the house favoring election of federal judges; providing for public meetings to discuss legislative measures; providing \$3,000,000 for the university.

A bill for county sanatoria was offered in the senate.

Senator Cook wants uniform passenger rates for all. Representative Bendixen wants strong roads to give 2-cent fare.

## KENYON ATTACKS MAIL FRANKING

Would Abolish Annual Seed Distribution.

HE PROBES CAMPAIGN MAIL

Free Postal Privilege For Government Officials Costs United States Millions of Dollars Is Discovery—Nevertheless Practice Is Expected to Continue—Free Seeds Also Popular.

By ARTHUR W. DUNN.

Washington, Jan. 17.—[Special.]—Senator Kenyon would be Jack the Giant Killer if successful in an effort he is making toward defeating the annual seed distribution and in reducing the amount of frankable mail. He has started out by asking for information as to the cost of sending out franked mail from political headquarters during the recent campaign and also the cost of carrying seeds free of charge, as well as the cost of the seeds to the government.

Thousands of tons of mail for political purposes are carried every year, but in a presidential year the amount is something tremendous. The postoffice department has made a rough estimate that the cost during 1912 was \$2,500,000.

Can't Be Stopped.

Seed distribution began when the old bureau of agriculture, having experimented with seeds, handed over its surplus to congressmen. The idea became so popular that now nearly \$500,000 is appropriated for the purchase of seeds to be distributed to the people as a gift. Senator Kenyon will not be able to stop either of these features of government, even if he makes it plain that they are abuses, or, as he calls them, "graft."

Franking and seed distribution have come to stay. Often have sincere reformers tried to have the seed appropriation eliminated, but to no avail. Less frequently has the franking privilege been attacked, but that is stronger than free seeds, as free mails benefit every member of congress.

Oldsted's Farewell.

Congressman Olmsted bid a sort of farewell to congressional life when the Indian appropriation bill was up, making the Carlisle school for Indians the text of his observations. Commending the school to those he left behind, he passed on to a tribute to Samuel W. McCall of Massachusetts, which ought to elect that man to the senate. Few men have received such an eulogy while living.

"When a member stands the test here," said Olmsted, generalizing, "when he is popular, looked up to and respected by the members after long service here, it may be taken for granted that he is well fitted for service in the senate."

Carter and the Minority Leader.

Congressman Carter and Minority Leader Mann enjoy each other. The Oklahoma man is nearly half Indian, but a keen and effective legislator. "I would like to ask the gentleman a question as a lawyer," said Carter one day. "Oh, you need not ask me a question as a lawyer," replied Mann. "I quit the practice of law long ago and, besides, I never answer a question of law without a retainer." "Not being a lawyer myself," responded Carter, "I was simply seeking advice from a distinguished legal light."

A little later Carter was trying to get Mann to withdraw one of his numerous points of order. "If there is a chance to persuade the gentleman I should like to plead with him," said Carter. "I cannot say," replied Mann. "The gentleman has so often persuaded me against my better judgment that he might be able to do it again."

Fowler Is Modest.

"What would you do if you were secretary of the treasury?" asked Stephens of Texas, making an argument against some contention of Fowler of Illinois. The new member blushed. "If the incoming president," he said gravely, "should make me secretary of the treasury, which I know he will not do, then I would be in a better position to answer that question."

Too Much Travel Pay.

"The reformers," said a cynical member, "those who want to save money for the government, should strike at 'travel pay.' It is amazing to notice that millions of dollars are spent every year by the different departments of the government for 'travel pay.' We transport the army hither and yon, we send officials abroad to 'study' conditions which our consuls should report upon, we send officials on 'inspection tours' to report upon matters that should be in the hands of men on the ground, we send men up and down the country lecturing upon subjects of various kinds and teaching the people how to live, how to earn their livings, etc. Indeed, paternalism seems to have taken possession of the government."

Newspaper Men in the Senate.

During the week past two newspaper men were added to the already long list of journalists who now occupy seats in the senate. Ambassador Bryce once made a humorous speech about a Utopia governed by the press. If this thing keeps up we will have theory in practice. It happens, unfortunately, that the newspaper men from Arkansas and Texas are to have only short terms as a matter of convenience.

EVELYN THAW.  
Admits Through Attorney She Has No Money Left.

EVELYN THAW GOES BROKE

Sued by Jeweler She Can't Stand Expense of Trial.

New York, Jan. 17.—Evelyn Nesbit Thaw, the actress wife of Harry Kendall Thaw, is absolutely broke. She hasn't even enough money further to combat a claim against her by a company of Fifth avenue jewelers for goods sold to her while her husband was in the Tombs awaiting his second trial for the murder of Stanford White.

This she confessed through her attorney before Justice Green. John Reilly, representing Mrs. Thaw, said his client is unable to bear the expense of a second trial.

MINORITY REPORT EXONERATES WARREN

Says Senator Is Not Guilty of Unlawful Inclosures.

Washington, Jan. 17.—Minority members of the committee on expenditures in the interior department submitted to the house their report, drawn by Representative Burke of South Dakota, in connection with allegations of alleged unlawful inclosures of public lands in 1906 by the Warren Live Stock company, in which Senator Francis Warren of Wyoming was interested.

Findings of the majority members of the committee held that the Warren Live Stock company was "maintaining unlawful inclosures of public lands in Wyoming and Colorado" in 1906.

The minority held "that there is no claim of any unlawful inclosures within the last six years and the claim of unlawful inclosures in 1906 is disproved by the overwhelming evidence of the record."

SIXTEEN PERSONS PERISH

British Steamer Veronese Runs on Spanish Coast.

Vigo, Spain, Jan. 17.—The British steamer Veronese, with 139 passengers on board, was wrecked off Leloes, the outpost of Oporto. Eighty-four passengers were saved by lifelines from shore, but it is reported that sixteen were thrown out of the basket and perished.

The steamer Hollandia stood by the Veronese, but the tremendous seas made it impossible to give any assistance. The stranded steamer could not be reached by boats, but finally the lifesavers managed to get their lines aboard.

The Veronese was bound from Glasgow to Brazil and thence to New York.

CASUALTIES ON GREAT LAKES

Toll of Life in 1912 Smaller Than in Former Years.

Detroit, Jan. 17.—Nineteen vessels were lost on the Great Lakes last year, an exceptionally small total, according to the annual report of William L. Livingstone of Detroit, president of the Lake Carriers' association, which was read at the annual meeting of that body. Loss of life was also small as compared with former years.

The report said thirty-nine persons were drowned or killed and of this number sixteen were of the crew of the schooner Rouse Simmons, the "Christmas tree" ship which left Northern Michigan for Chicago last November and was destroyed during a storm on Lake Michigan.

EARL OF ASHBURNHAM DEAD

Devoted His Spare Cash to Lost Causes of Europe.

Paris, Jan. 17.—The Earl of Ashburnham, who owned vast estates in England, died here. He was born in 1840. In 1886 the Earl of Ashburnham was chairman of the British Home Rule association.

The Earl of Ashburnham devoted all the money he could raise to the lost causes of Europe. He had a touching faith in the divine right of kings.

## WILSON OPPOSES INAUGURAL BALL

BILL HITS POWDER TRUST

Fortification Measure Cuts Price Government Will Pay.

Washington, Jan. 17.—A drastic provision aimed at the powder trust, following testimony alleging that the Du Pont Powder company maintains a lobby here and spends hundreds of thousands of dollars in Washington, features the fortification bill reported to the house.

The bill, which carries an aggregate of \$5,218,250, directs that no part of the appropriation shall be expended "for powder, other than small arms powder, at a price in excess of 53 cents a pound."

Both the army and navy powder plants at Picatinny arsenal and Indian Head, respectively, are making powder at much less than the 60 cents which the government now pays per pound to the Du Pont Powder company of Wilmington, Del.

FOR HIGHER IMMIGRANT TAX

Congressional Conference Agrees to Bill Increasing Amount.

Washington, Jan. 17.—The immigration bill was agreed upon in conference. It will be brought up for adoption in the house, where it was reported by Representative Burnett of Alabama, who framed the house proposition.

As agreed on immigrants will have to read their own language, but this requirement will be waived in the case of wives, widows, single daughters and certain others. The senate yielded on its idea of requiring of both a reading and writing test.

The head tax on immigrants was increased by the conference from \$1 to \$5 each, but there were exceptions as to this in favor of Canadians and Mexicans because of their adjacent territory.

TELLS OF CANAL PROGRESS

Goethals Expects to Send Ship Through by Fall.

Washington, Jan. 17.—Colonel George W. Goethals, chairman of the isthmian canal commission, told the house committee on appropriations about the progress of the Panama canal, through which he expects to send a ship or two experimentally next autumn. He and half a dozen bureau chiefs of the war department explained the official estimates of \$670,000 that is asked for in the sundry civil appropriation bill to provide fortifications, batteries, camps and the like during the fiscal year. The fortification expense is estimated at \$15,000,000.

The date set for opening the canal to commerce is Jan. 1, 1915.

Will Be Sent Back to England.

Chicago, Jan. 17.—John R. Wilmut, scientist, author, inventor and promoter, who recently was paroled from the Joliet penitentiary after serving five and one-half years of a seven-year sentence on a charge of forgery, is in the county jail here awaiting a formal order from Washington ordering his deportation to England.

President Elect Asks Committee to Omit Function.

SENDS LETTER TO CHAIRMAN

Reasons Given Are That the Expenses Are Heavy and Because the Ball Has Ceased to Be Necessary to the Enjoyment of the Visitors—Committee Members Are Taken Completely by Surprise.

Trenton, N. J., Jan. 17.—President Elect Wilson favors the abolishment of the inaugural ball. This became known when he sent a letter to William Corcoran Eustis at Washington, chairman of the inauguration committee, asking him to consider the feasibility of omitting it. Mr. Wilson's letter follows:

"My Dear Mr. Eustis: After taking counsel with a great many persons and assessing as well as I could general opinion in the matter I have come to the conclusion that it is my duty to ask you to consider the feasibility of omitting the inaugural ball altogether."

"I do this with a great deal of hesitation, because I do not wish to interfere with settled practices or with reasonable expectations of those who usually go to enjoy the inauguration, but it has come to wear the aspect of a sort of public duty, because of the large indirect expense upon the government incidental to it and because these balls have ceased to be necessary to the enjoyment of the visitors. "I hope most sincerely that this request will in no way embarrass you and that I have not too long delayed in making the suggestion."

Among several conferences held by Governor Wilson was one with Senator Elect Broussard of Louisiana, who had been invited by the governor to talk over various matters, particularly the question of abolishing the commerce court. Mr. Wilson had no comment to make on the subject after the conference. Mr. Broussard expressed himself as in favor of maintaining the commerce court or a court of equal jurisdiction.

SURPRISES THE COMMITTEE

Chairman Eustis Declines to Comment on Request.

Washington, Jan. 17.—Although William Corcoran Eustis, chairman of the inaugural committee, has not received President Elect Wilson's letter, Mr. Eustis and other officials having in charge the inaugural plans were surprised when informed of the suggestion to abolish the inaugural ball. Mr. Eustis declined to make any comment because the letter had not reached him.

He got in touch with George E. Hamilton, chairman of the finance committee of the inaugural committee, and arranged to have a meeting of all the inaugural officials to consider Governor Wilson's proposal. Mr. Hamilton declared Mr. Wilson's suggestion to be "remarkable, coming at this late date."

GAYNOR WON'T RUN AGAIN

Intimates Withdrawal in Speech to Holland Society.

New York, Jan. 17.—Mayor Gaynor, in addressing the dinner of the Holland Society of New York, intimated that he would not be a candidate for re-election.

"You have brought many good citizens into this country," said the mayor in the course of an eulogy of the Dutch people, "and you are a stable element in our society. I think you know how to vote right. I might make a bet that a whole lot of you did not vote for me. (A voice: "But we all will next time.") You didn't know enough. But here is a Dutchman who says you will know enough the next time—but you won't get a chance."

KILLED BY HUSBAND'S ENGINE

Woman and Daughter Die Beneath Locomotive.

Ottawa, Ill., Jan. 17.—Mrs. William Utair and her daughter, Myrtle Grieves, were instantly killed here by a switch engine insured by her husband and Christie Grieves, her son by a former husband.

The women had gone to the railroad yards to meet their relatives, who were just coming in from a run. They attempted to cross the tracks in front of the train when they were struck.

NO HOPE FOR MISSING SHIP

Official of Line Thinks Eldorado and Crew of Thirty-nine Lost.

Galveston, Tex., Jan. 17.—No word has been received of the Morgan line steamer Eldorado, eight days overdue from New York to Galveston, and General Manager J. W. Jurgen, speaking for the officials of the line, expressed the opinion that the vessel with her crew of thirty-nine men had been lost.

"I have no hope of the ship being found," said Mr. Jurgen, who arrived from New York.

The Eldorado carried a cargo of 2,000 gross tons of steel rails.

The brothers have not met for nine  
years and when Mr. Welch went to  
Merrifield to see James who was en-  
gaged in logging there, he asked  
James for a job. James did not re-  
cognize him at all and shifting his  
horse blankets, he said he might get  
some work if he was a good man.  
Taking another good look at Uriel  
he eventually placed him and was  
overjoyed to see him.

The annual business meeting of  
the members of the Evangelical  
church was held on Tuesday evening,  
January 14. Reports were read  
which showed that the church has  
just closed a very successful year.  
John Zander was reelected trustee  
for three years. J. H. Strickler and  
O. W. Merwin were elected ushers,  
substitutes for George Smith and  
Carl E. Haake. Other business of  
importance was transacted after  
which the members enjoyed a social

the Eagles. Hogan was a second and  
held the bottle and a towel. The  
first preliminary had just preceded  
four rounds when the lights went  
out, as they sometimes do in Brainerd.  
Hogan stayed at the ringside  
because he wanted to get his \$3  
worth. Eventually the light was  
turned on as suddenly as it went out  
and Hogan was scared stiff to see two  
fat policemen in the ring and him-  
self all the audience that was left.

**A HIGH SCHOOL FOR CROSBY**

Big Development on Range, Much  
Building Planned in This Hus-  
tling Range Town

Crosby, Minn., January 17—Engi-  
neers are busily engaged in running  
the lines and platting the new addi-  
tion to Crosby embracing the lands  
owned by Thomas Keating of Deer-  
wood. This property was explored  
for iron by George H. Crosby and  
none being located, the land will be  
made a subdivision of Crosby, with  
streets connecting with the original  
townsite.

The mining development at and  
near Crosby is proceeding unabated.  
The casual visitor is struck with the  
number of mines he sees at Crosby  
and on the road connecting Crosby  
and Ironton, and at Ironton. At  
noon and in the evening one hears  
whistles from all the shafts. Dur-  
ing the day smoke belches from a  
dozen stacks plainly to be seen from  
the windows of the Northern Pacific  
passenger coaches miles distant.

Much building is planned for the  
spring of the year, including cottages  
and new business blocks as well as  
improvements or enlargements of  
present structures.

Mr. and Mrs. W. S. Pitt have re-  
turned from a visit at Oelwein, Ia.

**DRUG EVIL ALARMS PARIS.**

Death of Professor From Use of Mor-  
phine Causes Probe.

A dispatch from Paris says that a  
general investigation into the illicit  
sale of morphine in Paris will be made  
as the result of the death there from  
the use of the drug of Rene Bichet, a  
young man who recently was appoint-  
ed professor of French in the Royal  
College of Budapest. The French au-  
thorities are convinced that an aggres-  
sive campaign must be waged in order  
to combat the growing craving for  
morphine in Paris.

The vice is said to be at its worst  
among the young women frequenters  
of the night cafes and dance halls in  
the Montmartre district and in col-  
legiate circles in the Latin quarter.

The Paris newspapers claim that the  
crave for the drug has reached terrible  
proportions in the higher normal col-  
lege, of which Jean Bourget, who is  
charged with having hypodermically  
administered the drug to Bichet, is a  
student. Bourget is charged with  
homicide by imprudence.

A mean stuffy cold, with hoarse  
wheezy breathing is just the kind  
that runs into bronchitis or pneu-  
monia. "Don't trifle with such ser-  
ious conditions but take Foley's  
Honey and Tar Compound promptly.  
Quick and beneficial results are just  
what you can expect from this great  
medicine. It soothes and heals the  
inflamed air passages. It stops the  
hoarse racking cough.—H. P. Dunn,

Flynn Sends Out Warning—Bad Ten

In spite of repeated warnings from  
Washington and numerous recent con-  
victions of counterfeiters in various  
parts of the country, New York and  
other cities are still flooded with spu-  
rious money. A large amount was  
passed among New York merchants  
during the rush of holiday shopping,  
and the banks have been kept busy  
stamping the bills counterfeit and turn-  
ing them in to the treasury.

Secret Service Chief Flynn's first  
warning from his new office came  
from Washington and told of a new  
twenty dollar gold certificate which  
his men are finding in various parts  
of the country. W. H. Moran, who was  
acting head of the service before Flynn  
went to Washington, sent out a warn-  
ing a few weeks ago of another twenty  
dollar bill, the maker of which op-  
eratives are trying hard to find.

That a large number of bad ten dol-  
lar gold certificates, whose circulation  
is now made public for the first time,  
have been passed in New York was  
shown by the number of them which  
a reporter found had been foisted on  
bankers and business men.

# GOOSE THAT LAYS THE GOLDEN EGGS

Such, Figuratively Speaking, is the N. P. Ry. in its Relations to Brainerd

## DON'T ASK TOO MUCH OF ROAD

Say Some of the Citizens—This is Essentially an N. P. Town Through and Through

When a prominent citizen of Brainerd was interviewed regarding the suggested improvements asked from the Northern Pacific railway in the shape of gasoline car service, a new depot and a parlor car to the St. Paul train, while other Brainerd people were simultaneously circulating petitions to have the Soo extend its line to Brainerd, this man shrugged his shoulders and said: "The Northern Pacific railway is the goose that lays the golden eggs. Take care you do not kill the goose. What's the sense of having one committee ask for these concessions and then having other people run around with petitions to have the Soo Line come to Brainerd. This town was made by the Northern Pacific railway and is supported by the Northern Pacific railway. Take out the shops and the tie plant and the hospital and what's left. If you get the Soo you will give them business which the Northern Pacific is itself creating. I don't say that more railways are not a good thing, but you must remember that there are few towns in the same situation as Brainerd. Before you do anything rash consider the goose that laid the golden eggs and don't go to killing the goose expecting to get more prosperity all in a bunch."

"If the Northern Pacific railway ever builds a new depot," said a drummer of this town, "it will be a sad blow, because I think the Minnesota & International railway will pull up its headquarters in Brainerd and move to Bemidji. That point, in his mind, settled the depot question. When it comes to deciding between the general offices and 20 men and their families who make Brainerd their home and a depot which cuts out the M. & I., any man would say: "Spare, oh! spare our old depot."

"The Soo Line" said another Brainerd man, "will not act contrary to the wishes of George H. Crosby and Mr. Crosby would never like to see his town attached to the same line running to Brainerd."

"Ten percent of the passenger business out of Brainerd is on passes," said another Brainerd business man. "And most of the freight you handle in Brainerd is through freight, so don't get puffed up with the idea that Brainerd is full of freight and passenger business, when even the Northern Pacific does not get uncomfortably rich out of Brainerd."

True, Brainerd has sent but few committees of business men to ask for anything. All the deputations going to the general offices at St. Paul have traveled on passes except the two Commercial club committees, which fact was noticed by Second Vice-President Hannaford.

After all the discussion started it looks to some people that the Soo Line will come to Brainerd if it resolves in its own mind to make the move, and as expressed by one prominent mining man, the Soo does make some funny moves some time. The old depot, good for years to come, will continue to grace the center of town unless taken over by the state historical society. Decay will never touch it for a half century because the contractor that erected it, according to traditions surrounding the structure, got 10 percent of the total cost for his commission and he used \$20 locks in preference to \$1 locks and big timbers in preference to little ones and accordingly what is in the old depot is put there to stay.

The gasoline car proposition is an innovation, and all railways fight shy of innovations which have to be tried out at the expense of the company.

Thus, in this easy manner, according to some Brainerd business men, we slip up on all the improvements broached and may consider ourselves mighty lucky if we get the parlor car on the St. Paul train.

## Wanted—Bids For Wood

The committee on fuel, supplies and printing of the board of education of the Brainerd school district will receive bids at the office of the secretary, Louis F. Hohman, 212 Ransford block, south Sixth street, Brainerd, Minn., to furnish said board with one hundred and fifty (150) cords or any part thereof, of green sound body wood, four feet in length and sawed at both ends.

Wood to be delivered to the various school buildings in said city of Brainerd, Minn. Bids to be received up to eight (8) o'clock P. M. of the 20th day of January, 1913.

Committee reserves the right to reject any or all bids.

# \$300 ROBBERY AT DEE HOLDEN'S

Robert Colvin, for over a year a bartender at Dee Holden's, decamped on the four o'clock morning train for Duluth carrying in his jeans \$250 to \$300 of his proprietor's money. The loss was discovered by the day bartender who promptly notified Mr. Holden, sick at his home.

Chief Ridley wired in all directions and Colvin was caught at Carlton and held. It stated that \$137 was recovered. Sheriff Reid left on the afternoon train with the necessary warrant to arrest Colvin.

No reason can be assigned for the act on Colvin's part unless it is drinking, which may have caused him to be so demented as to commit such a deed. He has a wife and four children.

## "WHY SMITH GOES TO CHURCH"

Rev. W. J. Lowrie Takes up the First of a Series of Sermons on Church Going

## SMITH WENT TO WORSHIP GOD

He Felt That he Was a Better Man and It Refreshed His Soul

At the Presbyterian church last Sabbath evening the pastor, W. J. Lowrie preached on the topic, "Why Smith Goes to Church." A number of reasons were mentioned by the speaker but the one most emphasized was that Smith went to church to worship. He went not to hear the music, nor a skillfully constructed sermon nor to meet people nor to hear the news of the day but to worship.

He felt that he was a better man for going, that he could meet the problems of the week ahead better if he refreshed his soul in the atmosphere of worship.

Smith knew some who stayed away because they did not like the minister or the sermon or there might be some one in the number of the congregation whom they did not fancy but Smith let none of these things disturb him he went to church to worship, to get the inspiration that would carry him through the following week when he was face to face with the hard things of life and work.

He knew that in church in common with most things else one gets what he goes after. Therefore he went not to look for faults in others, nor for the purpose of criticizing the preacher, but he went for the noblest reason of all to worship God.

The speaker gave other reasons why Smith went to church namely the eminent respectability of it, he saw others going and it looked good to Smith. The influence of others simply confirmed the practice of church going with Smith.

Smith had been brought up to go to church, his parents went before him. As a child he was taught by word and practice. Now through years of habit church going has become fixed upon so that he has no debate with himself about the matter. Smith has just as many reasons for staying at home as others have. There are fifty-two Sundays in the year and there is that same number of reasons for staying away but Smith accepts none of them as justifiable, so Smith goes to church.

## A Triple Surprise

On Thursday afternoon, January 16, at the home of Rev. A. Zabel, 315 Forsythe avenue Northeast, occurred what proved to be a triple surprise party.

The ladies of the church planned a birthday surprise party on Mrs. Zabel for that afternoon, and two young people from North Dakota came on the afternoon train from the west, to be united in marriage by Rev. Zabel at the parsonage.

Mrs. Zabel was surprised and the ladies as well. While the bride and groom were surprised to find a house full of guests, although uninvited, awaiting them upon their arrival. However, all parties soon overcame their surprise and enjoyed a very pleasant afternoon together.

After the marriage ceremony, the birthday lunch which had now also become a wedding lunch, was partaken of.

The groom, Geo. Wendtland and the bride, Ellen Spoerl, are of Verona, N. D. Mr. Wendtland is a prosperous farmer of that place, and Miss Spoerl is the daughter of Mr. and Mrs. Martin Spoerl.

The dress of the bride was of very handsome white silk striped chiffon trimmed in lace. The groom wore the conventional black.

They left on the early morning train for Paysonville, Minn., where they will visit Mr. Wendtland's parents, after which they will leave for an extended trip through the south, going as far as Oklahoma, returning March 1st to their home at Verona, N. D.

The ladies gave Mrs. Zabel a very pretty set of china dishes as a token of their esteem for her.

# WHAT COMMERCIAL CLUB HAS DONE

Extracts From the Annual Report of Carl Zapffe, President of the Club

## 1912 A YEAR OF ACTIVITY

Club is to be Commended for What it Has Done and What is Has Tried to Do

List of things which could not be accomplished:

24-hour postal service for Brainerd, and a through mail car on the M. & I. night train.

Extension of the Northern Pacific Staples-Fargo train service to Brainerd.

A state agricultural experimental farm: proposed location, county poor farm.

Raising locally a fund of \$2,500 for an extensive advertising campaign of Crow Wing county resources.

Securing near Brainerd the erection of a hospital to be erected by congress for the White Earth Indians.

List of things accomplished:

Procured Mrs. C. E. Brown, of Elk River, Minn., to address Crow Wing county farmers on potato culture; advertised the meeting and distributed printed copies of the lecture.

Procured President Vincent of the University of Minnesota for an address at the club rooms on a popular subject.

Procured a co-operative weather bureau for Brainerd.

Procured the installation of telephone service in the local express office, and had the N. P. Ry. Co. make arrangements with the Northwestern Telephone Exchange Co. to give all inquirers information regarding the arrival and departure of local trains.

Engaged a special photographer to procure photographs of Crow Wing county farm views, which were used to prepare a suitable pamphlet advertising Crow Wing county resources.

10,000 pamphlets were purchased, many of which were mailed and distributed throughout the United States. The views have been mounted in a suitable album, and are continually available for use at the club rooms.

Prepared an agricultural and mineral exhibit for the immigration office of the Northern Minnesota development association at Minneapolis, Minn., and sent one man to install the same.

Sent notice to the farmers during the spring to raise material suitable for an agricultural display at the state fair. Had one man in the field collecting this material. Had first, a local display, and offered a large list of valuable prizes. Then the material was used for a county exhibit at the state fair; sent two men to install the same.

Procured the erection of a bridge over Crow Wing river, through the co-operation of Morrison, Cass and Crow Wing counties, and raised money by subscription toward a fund for the erection of said bridge.

Conferred with the board of county commissioners regarding the appointment of a county mine inspector and the leasing of the county poor farm for mining purposes.

Assisted in carrying out the plans of University Week, held here during June by the University of Minnesota.

Started negotiations with the N. P. Ry. Co. regarding the installation of local gasoline car service, the procurement of a new depot and chair car service on twin city trains.

Provided for a noon hour lunch at the club rooms, to hear an address by Prof. J. S. Young on the commission form of government.

Provided for the Memorial day services.

Assisted in raising funds, and otherwise, for the annual convention of the State Federation of Labor, held in Brainerd during the month of April.

Encouraged and secured the 1913 state convention of the Federation of Women's clubs.

Encouraged and procured the 1914 convention of the Northwestern Norwegian Lutheran church society.

Encouraged and assisted in procuring Blake's Atlas of Crow Wing county, now being prepared.

Procured Prof. J. S. Young of the University of Minnesota for a lecture on a popular subject, to be given the latter part of January.

Recommended a list of citizens favored as members of the new city charter commission.

Arranged to raise money for the city band, but this work was not carried out, at the request of the band management.

Sent delegations to the meeting of the Northern Minnesota Federation of Commercial Clubs, held at Bemidji; the annual meeting of the Minnesota Federation of Commercial Clubs, held at St. Paul; the summer meeting of the Northern Minnesota Development association, held at International Falls; the annual meeting of the same organization held at Crookston; and the second Conservation Congress, held at Minneapolis.

Had a standing committee at work throughout the year on the construction of good roads and state highways, with particular reference to the construction of roads under the Elwell law, and have procured considerable action on road repair work in many places throughout the county.

Arrangements pending with I. C. McNair, president of the Northwestern Paper Mill, Cloquet, Minn., for the purpose of considering the advisability of the erection of a new

dam near Boom lake, instead of rebuilding the old dam in Northeast Brainerd.

Endorsed numerous resolutions of national importance, and attended to innumerable requests for statistics regarding Brainerd and Crow Wing county, and sundry correspondence.

The Children's Hour  
The work at the Children's Hour, which is held at the library hall every other Saturday afternoon, is progressing wonderfully well. At the last meeting, on January fourth, two new classes in industrial work, in charge of Mrs. Frank Hall and Mrs. Chas. Hoffman, were started. These classes are making caps and hammocks.

Miss Georgia Drexel sang most pleasingly at this meeting, and Kathleen Gemmell played two delightful piano numbers.

## M. B. A. CONVENTION WAS WARM ONE

J. F. Dykeman and Thos. Evans Attended the State Convention at Cedar Rapids, Iowa

## PROTEST INCREASE IN RATES

M. T. DeWoody Brands the Supreme Officers as "Traitors" and Assails Them in Speech

J. F. Dykeman and Thomas Evans have returned from Cedar Rapids, Iowa, where they attended a state convention of the Modern Brotherhood of America insurgents. Mr. Dykeman was elected a member of the national executive committee which is to fight the high increase in rates recently made and is now busy in Brainerd getting out a circular letter to the members describing the intentions of the national committee to combat this increase.

The Cedar Rapids, Iowa, "Gazette" has some interesting reading covering the doing of the insurgent convention. Under the heading "Brand Supreme M. B. A. Officers as 'Traitors'" it states: "Branding the action of the supreme M. B. A. convention at Denver as the 'dirtiest sell-out ever perpetrated on a fraternal membership and declaring that members of the order were paying more than old line rates and getting nothing in return but term insurance, M. T. DeWoody of Cedar Rapids, at the morning session of the Modern Brotherhood of America insurgents bitterly assailed the supreme officers and called on his hearers to give their moral and financial support to the movement which has been started to defeat the purposes of the Mobile bill. Strong resolutions denouncing the attitude of the supreme officers in attempting to enforce double assessments and higher rates were adopted. The Modern Brotherhood, which is the official publication of the order, edited by Luther A. Brewer of Cedar Rapids, was harshly criticised for not printing more news as to what the lodges were doing."

J. F. Dykeman, of Brainerd, Minn., said he had been a field agent for the M. B. A. up to October, 1911, "but quit because he couldn't take the medicine." He declared the thirteenth assessment was "bitter gall" for the members in Minnesota. He assured the members in Iowa that Minnesota would help out in the fight.

James E. Lawler, of Cedar Rapids, secretary of the national executive committee, read a financial report of what had been received and disbursed since the first insurgent convention held in May, 1912. Mr. Lawler urged that loyal support be given to the M. B. A. Truth, the insurgent publication which is being printed at Clinton under the management of Dr. J. C. Langan. The only expense in connection with the paper has been the printing and 5,000 copies have been issued every month since last October.

Mr. DeWoody moved that a finance committee be appointed and President Fitzgerald named Messrs. Finkham, Matthews, Bogard, Dykeman and Kirkpatrick. This committee was authorized to frame up a plan whereby money can be collected to keep up the fight against the regulars. Stinging resolutions were adopted.

Criticism for the way affairs of the order had been conducted were frequently heard during the afternoon session. Thomas Evans of Brainerd, Minn., said he had traveled over 400 miles to attend the convention and that he would return home and take up the fight with renewed vigor. "If you members in Iowa effect a good organization and win your points, we'll surely win in Minnesota," said Mr. Evans.

S. D. Robb, of Clinton, declared it had cost him \$1,309 for every member secured for the order in December, as the salaries and fees of field workers would bring the cost up to that sum. He accused President Hanley of appointing his son-in-law as head physician in addition to the fees he received which he said was contrary to the by-laws of the M. B. A.

He roasted the Modern Brotherhood, the official organ which is printed at Cedar Rapids, to a turn. "It cost us \$2,300 to get out this sheet last month," said Mr. Robb, holding aloft a copy of the paper, "and we're paying an editor \$100 a month to do nothing. I call it absolute stealing. Any high school lad in Iowa of average intelligence could get out a better paper or I'll eat my shirt."

## JUDGE COFFIN HOLDS COURT

Hears at Deerwood Case of State vs Five Italians on Wednesday Embodying Much Testimony

## ONE BONDED TO KEEP PEACE

Another Echo of Case at Crosby—How the Soo's First Passenger Came to Deerwood

Deerwood, Minn., January 17.—A case of importance which engrossed most of Judge Robert B. Coffin's time on Wednesday was the case of the state versus Hugo Contardi, Tony Scalcucci, Pete Phillipini, Marino Bernucci and Joe Rachini, accused by Howard Dickerson of assault with intent to kill. The trouble, it appears, started at a dance given in the country near Rabbit lake and next day, the parties meeting at a home near by, became involved in an altercation during which it was alleged some hot words passed and some pistol shooting was done, Dickerson firing two shots and Contardi two shots. No one was hit. Contardi was put under \$500 bonds to keep the peace for six months. Another echo of the case occurred at Crosby, where the Italians had gone before Justice Berg charging Dickerson with the same dire things that he charged the Italians at Deerwood. After a hearing there, Justice Berg placed Dickerson under \$500 bonds to keep the peace for six months. County Attorney G. S. Swanson of Brainerd prosecuted both cases for the state and was attended by Deputy Sheriff Claus Theorin. Many witnesses were examined and the cases caused much interest in the country.

In referring to celebrations and other jollifications when a new railway comes to town, Deerwood has then all beaten a mile when one views the entry of the Soo into that balliwick. The first Soo train passenger to Deerwood was John H. Hill, of Ironton and Duluth. Mr. Hill didn't expect any real fire or anything out of the ordinary, but he supposed that at least the Deerwood band and a delegation of citizens throwing bouquets on the engine and the train crew would be drawn up at the depot when the new railroad formally commenced the business of competing with the Northern Pacific. Not a soul was in sight and not a man in Deerwood, apparently, was aware of the formal entry of the Soo into the town. Thus quietly and with the utmost unconcern was passenger traffic on the Soo inaugurated into Deerwood.

E. A. Lamb is suffering with an attack of the gripe.

The Catholic church will hold services next Sunday at 11:30 in the morning, Rev. Father Tibbault of Aitkin, officiating.

H. J. Ernster, cashier of the First National bank of Deerwood, attended to business matters in Brainerd Wednesday.

A sleigh ride party from Deerwood attended the basketball game played by the Brainerd Y. M. C. A. and the Crosby-Ironton team at Ironton last week.

A. B. Johndrow of the Marshall-Wellis Hardware Co. of Duluth, has many investments on the Cuyuna. He now makes this territory the first instead of the last of the week.

Salsbury Adams returned Wednesday from a business trip to Duluth.

The volunteer fire department of Deerwood will give a ball at the Hilliard hall on Friday evening, January 31.

Mr. and Mrs. Cuyler Adams will spend the winter in Florida.

E. Archibald, of McGregor, was at Deerwood Sunday.

Ike Hazlett, of Minneapolis, J. J. Meyer and Warren E. Parker, of Wadena attended the annual meeting of the stockholders of the First National bank of Deerwood. All the old officers were re-elected.

Thomas Gray of Superior, transacted business in Deerwood during the week.

Mrs. Frank McGuire visited in Deerwood Wednesday.

C. J. Rathvon, it is reported, may run the Deerwood hotel himself. He is the owner of the building. William Guelker, who formerly conducted the hotel, has gone to Minneapolis.

Mrs. E. A. Lamb and son Clem have gone to Miami, Florida, to spend the winter with friends. They left Deerwood Tuesday traveling on the Soo to Duluth and from that point south. Supt. Cobb of the state fisheries department, visited the hatchery near Deerwood at Hamlet lake and took numerous pictures of the buildings and location, presumably to embody in a report to the legislature.

## MINES ARE BUSY AT IRTONTON

Cuyuna-Duluth Shaft Down 90 Feet Two Pumps Installed, Men Working Day and Night

## RESTAURANT MAN IS HURT

Peter Spina's Hotel Project Should be Given the United Support of Town of Ironton

Ironton, Minn., January 17.—The Cuyuna-Duluth shaft is down 90 feet and two No. 9 pumps easily handle all the water to be pumped out of the shaft. Twelve miners are at work and the crews are kept busy on day and night. The mining foreman or shift boss is Charles Anderson.

Peter Spina, who proposes to build a \$40,000 brick and fireproof hotel, should be given the united support of all Ironton. There is no better advertisement for a live town than a good hotel. The memory of a satisfying meal and a comfortable bed lingers in the minds of every drummer, mining man, business man or other frequenter of the range. Many men can be reached through their stomachs and if Ironton contemplates this psychological process of inducing visitors to speak well of it, the town must have a good hotel, an up to date bar in the same and it will draw trade and be filled from the very start.

The Pennington mine has two shafts at work and will soon install a third. Dump cars of 16 yard capacity are used. The shafts are of five yards capacity. The two new locomotives received from Biwabik are of standard gauge.

Smith's addition to Crosby, 250 lots lying east of Smith's West Park addition and adjoining Lake View addition have been platted by Mr. Smith. The lots are selling fast. Ed. Syverson is agent at Ironton. John Anderson of Two Harbors, bought a number of the lots.

County Treasurer Hanke of Minneapolis was on the range during the week examining his various investments.

H. E. Wetherbee, of Cleveland, O., a mining engineer and smelter man, accompanied P. H. Nelson of Hibbing on the range and stopped at Ironton.

Ed. Loerke, the restaurant man, sustained a bad rupture while sawing wood and was taken to the Northwestern hospital at Brainerd for treatment.

Rev. E. Lehne, John Ward, Otto Wendlandt, W. H. Denny and E. J. W. Donahue were at the Cuyuna-Sultana holdings during the week inspecting the work done by the drills.

## STOMACH STARVERS EAT ANYTHING NOW

No Indigestion, Dyspepsia or Sour, Gassy, Upset Stomach for Pape's Diapiesin Users

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapiesin, and realize not only immediate, but lasting relief. This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapiesin and a dose just as soon as you can. There will be no sour risings, no belching of undigested gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disorder.

## SOME RIVERTON IMPROVEMENTS

Woodenware Factory and Blast Furnaces Scheduled for the Enterprising New Town

## A BOOM DUE IN THE SPRING

Independent Boat Line Mentioned to Connect Riverton With City of Brainerd

Riverton, Minn., January 16.—Riverton appears destined for a big boom in the spring. The hydraulic plant of the Carlson-Williams interests will have stripped off enough of the overburden to commence installing steam shovels, building tracks to the pit mine and entering the list of shippers. During the winter Supt. Nelson was at various points in Florida and studied the best means of conveying material by sand pumps, and he examined many of the pumping outfits in the Everglades of that southern state. It is reported that a woodenware factory intends to locate at Riverton and that agents of the concern have been examining Riverton and its vicinity.

Another industry to be seeking a location is a blast furnace to melt into pig iron the ore extracted at the mines at and near Riverton. The representatives of the furnace company were scouting around Riverton looking up hardwood timber and getting acquainted with the lay of the land.

An independent boat line to connect Riverton with Brainerd is one of the possibilities of this year. Such a line would seem to be able to make a bonus on its investment and in addition to regularly carrying passengers and freight, the excursion business could be worked up to good dimensions.

Riverton is the youngest town on the Cuyuna range, but nevertheless it is causing some stir in the industrial and business world.

## ESDON ETCHINGS

Miss Ada Dye is on the sick list. We are sorry to say and is staying in Brainerd for the present.
